

Business management, Student

Join our FC Risk and Prevention team as a student worker and discover how business insights shape strategic decisions at Danske Bank. You will gain valuable experience in analysing data and financial decision making while supporting a team of specialised business managers. This role offers mentorship and learning opportunities to help you grow your analytical skills in a real business environment.

What you will be doing

As part of the FC Risk and Prevention team, you will contribute to business insights projects that inform strategic decisions across the organisation. Working closely with experienced colleagues, you will support data collection, analysis, and reporting activities while gaining practical experience in business intelligence and performance monitoring.

- Assist with data collection and basic analysis for business intelligence reports
- Support the preparation of presentations and documentation for senior management
- Help maintain performance overviews
- Contribute to projects and process improvements that strengthen our business management
- Participate in team meetings and learn about strategic planning processes

About you

We are looking for a curious student who wants to learn about business analysis and strategic planning. You should be comfortable working with data and have a genuine interest in understanding how businesses operate. Further, you have a structured approach to your work, meet deadlines reliably and enjoy translating financial information into clear business insights.

- Currently studying business, economics, finance, or a related field
- Basic knowledge of Excel and data analysis tools

- Strong attention to detail and accuracy in work
- Good communication skills and ability to work in a team
- Eager to learn and take on new challenges in a dynamic environment

Previous experience in business analysis or internships would be beneficial, but we welcome applications from students at different stages of their studies.

What we offer you

You will work in a hybrid model with 1-2 days per week in the office to promote collaboration and learning. This position provides excellent mentorship opportunities and real-world experience in business intelligence within a leading financial institution. You will develop analytical skills that are valuable for your future career while contributing to meaningful projects.

Are you ready for the next step?

We would love to hear from you if you are ready to start your career journey with us. Please submit your application by 29 October 2026. For questions about this role, contact either Jon Toft (jotof@danskebank.dk), who will be one of your mentors in the role or Amalie Utzon (utz@danskebank.dk), who is the hiring manager.

We look forward to hearing from you!

We review applications on an ongoing basis, so we encourage you to apply as soon as possible.
