

Director, Copenhagen Energy Islands (CEI)

Do you want to join a global leader in renewable energy infrastructure investments? If so, come and join Copenhagen Energy Islands (CEI), a Copenhagen Infrastructure Partners (CIP) subsidiary company exclusively dedicated to developing energy hubs globally. We are currently looking for a Director to join our team.

Team

Energy hubs will be the next generation of energy infrastructure assets. They will be critical in enabling cost-efficient deployment of large-scale renewable energy to achieve energy security and to reach ambitious global decarbonization targets, while maintaining cost competitiveness of the energy system. Energy islands, or energy hubs, are multifunctional energy infrastructure projects, involving large-scale renewable energy production integrated with conversion technologies to deliver electrons and molecules to demand centers. Copenhagen Energy Islands (CEI) is a company dedicated to originating and developing these projects.

You will be working closely together with an experienced team in a high paced, dynamic environment. We bring experts together with backgrounds in commercial, regulatory, development, legal, consulting and financial careers, to name a few.

We are a strong, social, and multi-national team with a passion for making a difference. Our collective character can be described as creative, dedicated, resourceful and humble. We are excited to work on something that is complex and will enable a step-change for the renewable industry.

Role

As a Director you will supervise several teams that work on opportunities in a number of markets. You will oversee the activities in technical, commercial, stakeholder and financial workstreams; and you will drive our external relationships with partners, advisors, and (non-)governmental organizations.

Your responsibilities will be to:

- Maximize the CEI investment value of the energy hub opportunities you work on
- Coordinate development activities with workstream managers that form part of the project development team
- Build and mature the investment cases for the CEI project you work on
- Own the project financial model and ensure that the model is maintained and used consistently across the projects
- Be the CEI focal point for our (joint venture) partners
- Manage the processes related to joint ventures, fund raising, divestitures; including negotiation of agreements and transaction documents
- Develop insights and high-quality presentations for internal and external stakeholders
- Advise CEI leadership team regarding general corporate matters such as portfolio management and resource allocation considerations
- Support CEI fundraise activities, including managing certain workstreams
- Play an active role in origination of new project opportunities and develop in-depth understanding of target markets
- You will help to manage, train and develop the Managers, Associates and Analysts, and will contribute to the positive, professional and collegiate working environment
- Participate in our activities to grow the team, such as interviewing and ranking candidates.

You

The work environment at CEI is lean, stimulating and demanding, within a global context. We are therefore looking for a self-starting, collaborative, and high-performance professional with an entrepreneurial drive. You have 15+ years of relevant experience from project development or infrastructure investment organizations.

Moreover, you have a background in offshore wind, hydrogen, Oil & Gas or other energy development and track record in bringing complex investments successfully to Final Investment Decision.

Key qualifications include:

- Knowledge of regulatory environment in the energy sector, and familiar with stakeholder engagement practices to shape desired outcomes
- Corporate Development and M&A knowledge
- Experience in commercial negotiations
- Ability to contribute to the overarching logic of business case when dealing with senior leadership and to step into the detail when discussing project specific aspects
- Experience in rapidly growing teams and businesses as well as exposure to critical governance structures and processes in an international environment is preferable
- Team player with the confidence to exercise judgement appropriately, engaging with colleagues at all levels of seniority
- Advanced communication skills with fluency in written and spoken English
- Ability to work well under pressure and take on responsibility
- You are proactive, think ahead and stay hands-on.

It is the expectation that frequent presence in Copenhagen is necessary for success.

The process

Please apply online as soon as possible as applications will be processed on an ongoing basis. For questions related to the role, please reach out to our Talent Acquisition team at recruitment@cipfs.com. We do not include CV's and Cover Letters sent by email.

As we continue to improve our candidate experience, diversity and avoid unconscious bias, please avoid having a photo in your CV. We commit to an inclusive recruitment process and equality for all applicants.

Please be aware that we will not accept speculative CV submissions for any of our roles from recruitment agencies, and any unsolicited candidate submissions will be exempt from any payment expectations and ownership.

Building value that matters

Founded in 2012, Copenhagen Infrastructure Partners P/S (CIP) is a global fund manager and leading investor in energy infrastructure. CIP builds value that matters by developing and constructing critical infrastructure projects that shape the future of energy.

Through its funds, CIP invests in power generation (solar and wind), energy storage, transmission and distribution, advanced bioenergy, low-carbon fuels and carbon capture.

With 15 funds currently under management, CIP is trusted by over 200 of the world's largest and most sophisticated institutions, having raised EUR ~43 billion to date.

CIP has projects in more than 30 countries, with presence on the ground through a network of +2,300 professionals with extensive experience and knowledge within the fields of renewable energy project development and regulated infrastructure. In addition, CIP has a broad range of competencies within corporate finance, mergers & acquisitions, engineering, construction, project development, and project management.

Headquartered in Copenhagen, CIP operates from key locations across the globe, including offices in Hamburg, Munich, London, Amsterdam, New York, Tokyo, Melbourne, Luxembourg, Kuala Lumpur, Seoul, and Singapore. In addition, CIP has 17 local project offices globally.
