

Head of Accounting

Banking hasn't changed much in decades. We're changing that. One product at a time.

Lunar is a Nordic challenger bank building the future of financial life with AI at the core. Our engineers, designers, and product people work on problems that actually matter. Making money simpler, smarter, and more rewarding for millions of people across the Nordics.

Fully licensed and founded in 2015, with offices in Copenhagen, Aarhus and Stockholm.

We move fast, we build with purpose, and we're just getting started.

As our new **Head of Accounting,** you'll join the Finance team based in **Copenhagen**, reporting to the Director of Finance Operations, working to make Lunar's numbers accurate, on time and audit-clean as the bank scales.

What will you do?

- Own the general ledger, month-end close, statutory accounts and IFRS compliance for a licensed Nordic bank
- Lead the balance sheet reconciliation programme — product by product, starting with deposits and international payments
- Build the control environment: segregation of duties, bank payment dual approval, supplier onboarding controls, and SOPs with named owners for every key process
- Drive automation and system quality — take Adra fully live, cut manual journal entries, and bring the ledger's needs into our Business Central migration
- Lead and grow the accounting team, taking core roles off consultant dependency and onto permanent capability

What are we looking for in you?

- Qualified accountant with experience owning the ledger and statutory accounts in a bank or another regulated financial institution
- Strong IFRS knowledge, including IFRS 16, and confidence making and defending recognition judgements
- Experience building a control environment from a starting point that genuinely needed work
- Experience leading an accounting team through a systems change, a close acceleration, or both
- Direct experience of external audit as the primary finance contact

What you get

- 4 days in the office. We're a team that builds together, thinks together, and moves together. Showing up is part of how we work.
- State of the art equipment. The newest computer, monitor, mouse, and keyboard. We want you to do your best work without anything slowing you down.
- Pension, health insurance, and enhanced parental leave. From your financial future to your family moments. We've got you covered.
- A function being rebuilt, not maintained. Accounting was separated from Controlling two months ago and the roadmap is already written. You get a clear mandate and a genuine build — including the parts that are still messy.

Are you ready to join the journey? Apply now and let's find out more!

While you hold on tight for us to get back to you, curious to see what we're up to? Follow us on LinkedIn for business announcements and releases , check out our Instagram for an inside scoop on what it's like to work here.

We welcome applications from candidates of all backgrounds. If you need any adjustments during the recruitment process, please let us know.

Depending on the regulations in the country where you will be employed, we will ask to see or obtain information about your criminal record.
