

Portfolio Manager – Driving Prioritisation and Strategic Execution

Are you a results-driven Portfolio Manager who thrives in complexity? Are you ready to play a key role in shaping how we prioritise and manage our Tech portfolio?

At Danske Bank, we are on a journey to become a fully data-driven organisation. We are looking for an experienced Portfolio Manager to join our Tech Portfolio Management team in Copenhagen – a role for a high-potential profile with strong drive, analytical sharpness, and the ability to work closely with senior stakeholders.

The ideal candidate combines strong portfolio management and governance expertise with strong stakeholder management skills and a clear focus on delivering results.

What You Will Be Doing

As Portfolio Manager in our Tech Portfolio Management team, you will work closely with the Head of Portfolio Management and senior stakeholders to oversee our strategic initiatives. Your role bridges complexity and clarity, helping the organisation make informed decisions about resource allocation and strategic priorities.

- Support portfolio oversight, planning and prioritisation across strategic objectives
- Develop clear and structured decision materials, including monthly portfolio reporting, tracking, and insights for senior leadership.
- Translate complex data and inputs into actionable insights and clear recommendations
- Facilitate cross-functional collaboration and portfolio alignment across stakeholders to balance competing priorities
- Establish, drive and continuously improve portfolio governance frameworks, processes and reporting
- Identify and monitor portfolio health, risks, dependencies and trends, ensuring visibility and timely escalation

About You

We are looking for a motivated and result-oriented profile who thrives in a fast-paced and complex environment.

- Around 7 years of experience in portfolio, project or programme management, consulting, strategy, or similar roles.
- High personal drive and ownership mindset, with a strong focus on delivering results in a fast-paced, evolving environment.
- Strong analytical skills with the ability to structure problems clearly
- Proven ability to manage complexity and balance multiple stakeholders and priorities
- Background working within large corporate or multinational organisations.
- Skilled in stakeholder management with senior-level engagement experience.
- Ability to prepare high-quality presentations and decision materials.

Experience with data visualisation (e.g. Power BI or similar), analytical (e.g. SQL, Python), or GenAI tools would be valuable additions to complement your core portfolio management capabilities.

What We Offer

At Danske Bank, we are committed to creating an environment where you can grow and perform at your best. You will join a highly engaged team working directly on strategic priorities with senior leadership. We offer flexible working with 1 to 2 days working from home per week. This role provides excellent opportunities for professional growth and meaningful engagement with complex business challenges.

This position can be located both in Denmark and Lithuania. If the position is located in Lithuania, the salary range will be from 3760 EUR to 5640 EUR gross (based on your competencies relevant for the job).

Benefits package

Includes learning and development opportunities, health and well-being support, hybrid work, extra leave days and insurance/pension coverage. You can read more about "Life at Danske Bank" [HERE](#).

Are you ready for the next step?

We review applications on an ongoing basis, so please apply as soon as possible. If you have questions about this role, please contact Head of Portfolio Management Rikke Bang-Jensen at rbaje@danskebank.dk. We look forward to hearing from you!
